OUR STORY

It's all about **THE FIRE.**

Our Wood Fired oven is Fired at 900 degrees and provides an ideal cooking temperature for the most authentic of Pizza; Wood Fired Pizza. Fired guests can expect a crisp, light crust made from distilled water and only the finest flours. Our recipe is simple - because the finished product speaks for itself. Imported from Italy - Fired uses authentic San Marzano tomatoes in our pizza sauce. These bold & vibrant tomatoes are the historic favourite and most flavourful tomatoes. Blended with a bold mixture of spices and herbs - you'll be left asking "What's in that sauce?" But don't worry - we'll never tell!

And long before the pizza hits the oven - our biggest weapons are certainly our staff. From the amazing people who keep our building clean to the cheery voices answering the phone or the culinary masterminds feverishly building our cuisine there are no minimum wage employees at Fired. We believe them to be the heart of our food and the key to our future. Minimum is a standard and one you won't find at Fired. We believe our customers are worth so much more - and we've ingrained that in our culture. Lastly, we hope you enjoy everything Fired has to offer - your smiles and the oo's and awe's we see on your faces as you devour our food, are what keep us engaged, proud and indeed the inspiration for the next amazing creation. Your feedback is respected and your patronage is valued. For that we salute you!
